PROPOSED URGENCY  
NON-URGENTREASONS FOR  
URGENCY

The CMA CEO will review this information and make a decision as to whether to take this MCCP / OCCP forward as urgent as defined under Market Code Part 8.9.1

| MCCP / OCCP DETAILS   |                |  |
|---|----------------|--|
| ISSUE OR DEFECT WHICH THIS MCCP / OCCP SEEKS TO ADDRESS<br>Required under Market Code Parts 8.7.1 (ii) (b) and 8.8.1 (ii) (b)   |                |  |
| The purpose of this MCCP is to capture final refinements to the Market Code and Code Subsidiary Documents (CSDs), required as a consequence of the development of the October 2019 Release and to consolidate the required Market Code and CSD changes which have already been described in the Approved Changes that form the scope of that Release. The MCCP also picks up inconsistencies and or gaps identified from previously Approved Changes                                |                |  |
| DESCRIPTION OF THE NATURE AND PURPOSE OF THE MCCP / OCCP AND HOW IT MEETS THE MARKET CODE / OPERATIONAL CODE OBJECTIVES AND PRINCIPLES FOR THE MARKET DOCUMENTS<br>Required under Market Code Parts 8.7.1 (ii) (c) and 8.8.1 (ii) (c)   |                |  |
| General Description   |                |  |
| The Market Code and CSD changes proposed in this MCCP are required as a natural consequence of developing the Approved Changes for the October 2019 Release. In particular, not implementing this change would leave gaps in the Market Code and/or CSDs. However, it should be noted that the changes described in this MCCP are to ensure that the intent of the Approved Changes that are pertinent to the October 2019 Release are fully reflected in the Market Code and CSDs. |                |  |
| Principles and Objectives affected<br>CMA Guidance Note GN009 may be referred to for assistance with this section   |                |  |
| PRINCIPLE   | AFFECTED (Y/N) | DESCRIPTION  |
| Proportionality   | Y              | Aids implementation of Approved Changes  |
| Transparency  | Y              | Removes gaps in Market Code and/or CSD drafting for the Approved Changes pertinent to the March 2019 Release |
| Simplicity, Cost-effectiveness, and Security  | N              |  |
| Non-exclusivity   | N              |  |
| Barriers to Entry   | N              |  |
| Customer Contact  | N              |  |
| Non-discrimination  | N              |  |
| Non-detrimental to SW Core Functions  | N              |  |
| MC / OC OBJECTIVES  | N              |  |

| IMPACT<br>Required under Market Code Parts 8.7.1 (ii) (d), (f) and (g), and 8.8.1 (ii) (d) and (f) |                |   |

| DRAFT LEGAL TEXT<br>Required under Market Code Parts 8.7.1 (ii) (d) and 8.8.1 (ii) (d)  |
|---|
| <p>The purpose of this MCCP is to consolidate those changes being made to the Market Code and Code Subsidiary Documents arising from the October 2019 Release. In addition, the proposal includes minor refinements which have not already been captured in those MCCPs.</p> <p>The additional changes are:</p> <ul style="list-style-type: none"> <li>• <b>Market Code:</b> Remove references to T021 and T023 transactions from the definitions in Schedule 1, as these are unnecessary and differ from all other definitions (which do not refer to transactions).</li> <li>• <b>CSD0002 – Performance Standards:</b> In sections 4.3 and 4.4. a typo in the equations should be amended; <math>RPS C_{CMA}^{q=1}</math> should be identified, not <math>RSP C_{CMA}^{q=1}</math>.</li> <li>• <b>CSD0104 Part 1 – Maintain SPID Data (SPID Level):</b> In section 4.3 (visio diagram) and section 4.4 (summary table), the reference to the T031.1 should be a reference to the T036.1 transaction.</li> <li>• <b>CSD0106 – Non-Market Meters:</b> A Correction to the Sub-title for this CSD is required, as it is identified as Schedule 10, but the Market Code lists this CSD correctly as Schedule 24.</li> <li>• <b>CSD0202 – Meter Read Submission Process:</b> References to 'CSD0104 Section 7 should be modified to read 'CSD0104 Part 1'.</li> <li>• <b>CSD0206 – Trade Effluent Processes:</b> References to the 'T028.0 and the T028.1 need to be swapped in some instances; the T028.1 should be identified as the SW submission, whilst the T028.0 should be identified as the CMA notification to the LP.</li> </ul> |

- **CSD0207 - RF Charge Calculation, Allocation and Aggregation:** In section 3.3.27. there is a typo in the equation for Calculating the Sewerage Capacity Volume Charge. This should read;

$$SCVCHARGE = SCVP \times \max(\min(ASYV, SPCVT) - SPFA, 0) \text{ and not } SCVCHARGE = SCVP \times \max(\min(ASYV - SPCVT) - SPFA, 0).$$

- **CSD0301 – Data Catalogue:** The following further amendments should be made.

- Revised Error Codes.

| Error Code | Revised Description |
|------------|---------------------|
| GJ         | No Longer Used      |
| GM         | No Longer Used      |
| GN         | No Longer Used      |
| GO         | No Longer Used      |
| GP         | No Longer Used      |
| GQ         | No Longer Used      |
| GR         | No Longer Used      |
| GS         | No Longer Used      |
| GT         | No Longer Used      |
| GU         | No Longer Used      |

- **CSD0301 Annex:** The Annex contains raw XML from the CMA CS code. This is generated directly from the code once the new version of the code is accepted by the CMA. Additionally, a correction should be made to Section 5 to state that the CMA Central Systems will generally be available from 07.00 to 19.00 every day.

- **CSD0302 – Standing reports and data access:** With the removal of the Vacancy Admin Scheme from the CS (MCCP240), the Market Dataset reports X31 and X32 now require amending to remove the D2031(Vacancy Change Flag) and D2032 (LP Challenged Flag) fields that are no longer needed.

- **Transaction Description Changes:** The revision of the LVI (CMACPx181) has highlighted that a number of Transactions in the CMA CS and in CSD's do not always have the same description. A standardised description has been established, based on the use of key words (such as 'Submit' and 'Notify') and further minimal identification to ensure that all such descriptions are unique. The opportunity has also been taken to modify some descriptions that are ambiguous. These should be applied both to the CMA CS (LVI only) and to CSDs. The changes to each CSD are as follows:

- **CSD0002 Performance Standards**

| Transaction | Old Name | New Name |
